Education

University of Victoria | Victoria, BC

Bachelor of Science in Computer Science and Mathematics | Jan 2023 – Present

Technical Skills

Programming Languages: Java, Python, R, JavaScript, HTML5, CSS3, Ruby

Frontend Development: React, HTML5, CSS3, JavaScript, PyQt6

Backend Development: Node.js, Express.js, RESTful APIs

Databases: MongoDB, SQL

Tools & Frameworks: Git, GitHub, Jekyll, JSON

APIs & Libraries: Nylas API, scikit-learn, NumPy, Pandas

Development Practices: Version Control, Full-Stack Development

Systems & Environments: macOS (Unix), Linux (Ubuntu – remote/SSH), Command Line, Bash, SFTP (Cyberduck)

Projects

AI-Powered Meeting Notetaker | Node.js, Express, React, MongoDB, Nylas API

Inspire Hackathon – First Place Winner (Oct 2025)

- Built full-stack application with a team of 5, integrating Nylas calendar API and real-time transcription to automate meeting note generation, significantly reducing post-meeting documentation time for users.
- Implemented webhook integration and Server-Sent Events (SSE) to provide live transcription updates, enhancing user experience through real-time feedback during active meetings.
- Architected scalable MongoDB database schema and RESTful API endpoints to handle concurrent meeting sessions, enabling seamless data persistence and retrieval across multiple users.

Clinical Note Classification System | Python, PyQt6, scikit-learn, Machine Learning

- Developed machine learning pipeline using TF-IDF vectorization and Naive Bayes classifier to automatically categorize clinical notes into Emergency, Follow-up, Routine, and Initial Consultation types with high classification accuracy.

- Designed intuitive PyQt6 desktop interface with real-time patient record management and appointment scheduling capabilities, streamlining clinical workflow for healthcare professionals.
- Implemented JSON-based data persistence layer and leveraged Git version control to ensure data integrity and collaborative development throughout the software development lifecycle.

Leadership & Volunteer Experience

Technical Support Lead | UVic AI Club, University of Victoria

Sep 2025 – Present

- Maintain and update club website using HTML, Ruby, and Jekyll framework, implementing responsive design improvements that increased member engagement and optimized site performance.

Vice President & Event Coordinator | UMANG Indian Association, University of Victoria

Sep 2023 – Sep 2024

- Led cross-functional team of 8 members to coordinate 12+ large-scale cultural events serving 300+ students, managing end-to-end logistics including vendor negotiations, budget planning, and volunteer coordination.
- Mentored junior executive members on strategic event planning and project management frameworks, developing organizational skills that improved team efficiency by 35%.
- Developed and executed social media content strategy across Instagram, Facebook, and LinkedIn, increasing follower engagement by 60% and expanding organizational reach to prospective members.
